### Qualifications:

I believe that the Constitution of the United States was written by honorable, wise men that God raised up for the purpose of providing freedom unlike any nation has ever known. I believe that all rights are inherent by our humanity, not given by the government and government cannot take that away (unless we allow it to). Government's purpose is to protect individual freedoms of life, liberty, and freedom to use our own property as we see fit; its purpose is to serve the people.

I feel that one of our rights is to be unburdened by debt; locally or nationally. I feel that our taxes are not being used properly and that our county is much further in debt than is justifiable or necessary. I feel that the money we pay to our government is sacred and must be used appropriately. I would be pleased to see Iron County grow into self-sufficiency that we would not be dependent on anyone outside of our county. I hope to encourage initiative in business with lower taxes, fees, and other burdens to allow individuals to help themselves. If you agree please join me at the ballot box November 2, 2010.
